

## Instruction Manual

## Product & Accessories

Cube ( 121202001 White / 121202002 Black )

• Please check if all following items are present and if there is any damage before use.

## Operating Instructions

• Always place your scent diffuser on a firm, flat, and level surface.

- Press the lid downward gently; the lid will automatically rise upward shortly.
- Remove the lid once the lid is in its raised position. Turn the lid upside down; the water tank is located underneath it. Open the rubber cap on the water tank opening.
- Fill the water tank with SERENE HOUSE Fragrance Aqua of your choice to 80% full and close the rubber cap.

  - Do not fill the water tank with SERENE HOUSE Fragrance Aqua exceeding the surface of the water tank; this is to avoid affecting its operating efficiency.
  - Fragrance Aqua is sold separately and is not included with the product.
- Put the lid back onto the main unit and gently press the lid downward. Be sure the nozzle is facing forward when putting the lid back onto the main unit.
- Plug in the Micro USB cable into the main unit and plug in the other end of the cable to a USB port ( as shown in figure ) .

  - Please use an AC adapter that complies with the safety regulations when using general household outlets to supply power.
- Press the lid downward to turn the power on. The lid will rise upward when it starts to operate.
- The spray setting button located at the bottom of the main unit can be used to select the spray setting ( default setting is 3 minutes ) .

  - Blue light – 3 minutes spray setting.
  - Yellow light – 5 minutes spray setting.
  - Operating 8 hours a day: Provides approximately 30 days of continuous use when set at 3 minute intervals. Provides approximately 60 days of continuous use when set at a 5 minute intervals.
  - Usage days dependent upon spray setting and Fragrance Aqua used.

## Cleaning & Maintenance

• Always remove the power cable before cleaning & maintenance.  
• It is recommended to clean and maintain the unit as soon as the Fragrance Aqua is depleted in order to ensure proper operation of the machine.

- Press the lid downward to turn off the power and remove the Micro USB cable.
- Press the lid downward and remove the lid once it is raised upward for cleaning & maintenance. Make sure the USB power cable is unplugged from the main unit.
- Open the rubber cap of the water tank underneath the lid to empty the unused Fragrance Aqua left inside.
- Clean the water tank with warm water ( do not exceed 40°C ) , place the rubber cap back in place and shake gently. Open the rubber cap to empty the water in the water tank ( repeat a few times if required ) .
- To reuse, fill the water tank with SERENE HOUSE Fragrance Aqua of your choice and close the rubber cap. Allow the water tank to dry thoroughly prior to adding Fragrance Aqua.
- Put the lid back onto the main unit and gently press the lid downward. Be sure the nozzle is facing forward when putting the lid back onto the main unit.
- Plug in the Micro USB cable into the main unit and plug in the other end of the cable to a USB port ( as shown in figure ) .

  - Please use an AC adapter that complies with the safety regulations when using general household outlets to supply power.

# Troubleshooting

If you experienced unsatisfactory operations, please follow our troubleshooting guidelines listed below.

### Machine does not operate

- **The water tank is not in the right position**
  - Please confirm whether the water tank is properly placed. Please refer to Operating Instructions - Step 4.
- **The Micro USB power cable is not properly connected to the power socket on the main unit.**
  - Please confirm whether the power cable is properly connected to the main unit's power socket.
- **It will not spray**
  - Please make sure Fragrance Aqua is added into the water tank. If the product has not been used for a long period of time, wipe the nozzle with a damp soft cloth or cotton swabs. Do not clean the nozzle with sharp or hard objects in order to avoid damage.
  - When there is liquid residues forming at the spray nozzle, please clean it off with a soft cloth and check whether there is excessive Fragrance Aqua; it is recommended to fill the water tank with Fragrance Aqua up to about 80% full and do not exceed the surface of the water tank.
- **Used other brand of fragrance**
  - Please use SERENE HOUSE Fragrance Aqua; this is a special formulated fragrance made exclusively for the Cube.
- **Using an AC adapter that does not comply with the safety regulations**
  - Please use an AC adapter that complies with your local safety regulati

### Poor fragrance effects

- **Nozzle blockage**
  - Wipe the nozzle with a damp soft cloth or cotton swabs. Do not clean the nozzle with sharp or hard objects in order to avoid damage.
- **Placement of the product**
  - Avoid placing the product at low locations and always use it on a firm surface in a place with low air flow.

Do not attempt to dismantle or repair the product by yourself. If the unit still does not operate satisfactorily, please visit our website [www.serenehouse.com](http://www.serenehouse.com), and click link "Support", or contact our customer service.
